## Description

This has been our most popular product for the past 15 years and now Classic Plus has a heavier weight more robust pile together with larger studs. The excellent quality with the low price makes it fantastic value for money. With the exclusive bubble stud drainage system this can be laid directly onto any surface. The close natural pile resists indentation from garden furniture.

Because there is no pile direction on the grass, pieces can be laid and joined in any direction to reduce any wastage.

Ideal for all kinds of domestic and commercial uses, it makes the perfect solution for covering wooden decking, creating a free draining, slip resistant surface.
