## Product Images

## Description

Extinguish is an artificial grass designed with Exhibition and Trade halls in mind. The much higher fire rating of Cfl-s1 allows this product to be used commercially indoors as it conforms to much higher standards set by the European Exhibition Industry.

This range can also be used outdoors for any landscaping project.

As with all our ranges the Extinguish does not require a sand or rubber dressing over the top compared to its rival grasses of the same design. The grass is very popular with smoking areas, large terraces and even play areas. Its tough natural close pile makes it ideal for any heavy domestic use.
