Description

Introducing our Innovative Artificial Grass Perimeter Edge Fixing System

Revolutionize your artificial grass installation with our efficient and cost-effective perimeter fixing solution.

Perfect for both Trade Contractors and DIY Enthusiasts Exceptionally Adaptable and Versatile Ensures a secure, unobtrusive boundary between your grass and flower beds or pathways, offering up to 9 fixing points per meter.

Simply secure it in place with our fixing nails and attach your artificial grass to the integrated shelf/tabs using the provided GripSeam Adhesive.

This system can be effortlessly curved in any direction to shape your lawn's perimeter, effortlessly accommodating trees and shrubs.

Proudly Manufactured in the UK from Heavy-Duty HDPE Plastic, striking a remarkable balance between flexibility and robustness when installed.

Built to Last:

- Resistant to Rust and Rot
- UV and Frost Resistant
- Fully Recyclable
