Optimise your artificial grass maintenance with the Turfmatic 380 Artificial Grass Sweeper. This powerful tool is specially crafted for seasonal upkeep, guaranteeing your synthetic lawn remains pristine year-round. Say goodbye to unsightly twigs, leaves, and weeds, as this sweeper effortlessly clears them away while revitalising flattened areas.

Featuring a dedicated 380mm brush head engineered exclusively for artificial grass, using the cutting-edge Turfmatic™ Astrospiral Nylon, this sweeper offers precision and effectiveness like no other. With four adjustable height settings, it accommodates all types of artificial grass styles, ensuring a tailored approach to your lawn's unique needs.

The 2-in-1 design of the Turfmatic 380 is a game-changer. Not only does it rejuvenate flattened grass, but it also expertly collects debris, making your maintenance routine a breeze. Elevate the longevity and visual appeal of your artificial grass effortlessly with this innovative sweeper.

Invest in the Turfmatic 380 Artificial Grass Sweeper today and keep your artificial grass looking as good as new, year after year.
