

Fixing Pins / 6inch Nails for Artificial Grass

£9.95

Product Images

Description

These Lawn fixing pins are an ideal solution for securing exposed edges of your Artificial Grass project. Unlike the shorter products sold by other Grass retailers, these are the full length 6" nails to get a better fix on your grass.

Landscapers and installers recommend using one nail every half a metre along any exposed edges.

Not recommended for grasses shorter than 20mm
